

With customers in 16 countries, Anantara Solutions is a new generation outsourcing firm that combines business consulting services and IT services to deliver unprecedented, measurable business value.

Anantara is a pioneer of Second Generation Outsourcing (SGO) and is founded by an eminent management team which, by 2007, built a nearly US\$ 200 million consulting and outsourcing business from scratch in about a decade.

The prime tenet of Anantara's philosophy is to partner with its clients using innovative models of engagement. The accent is not just on IT benefits but on a whole host of business benefits. Realizing strategic imperatives in the form of measurable business value, through Business Solutions, is a cornerstone of Anantara's engagement philosophy.

Anantara would deliver such solutions to its customers by enabling a collaborative work environment in which it works closely with customers and business partners in a continuum focusing relentlessly on creating tangible value. "Anantara" in Sanskrit means "the continuum."
