

Mark Hurd born on January 01, 1956 has been chief executive officer and president of HP and a member of the Technology CEO Council.

With the goal of establishing HP as the world's leading technology company, Hurd has sharpened HP's competitive edge.

At the same time, Hurd has improved HP's operating efficiency and execution as well as its financial performance.

Prior to joining HP, Hurd spent 25 years at NCR Corp., where he held a variety of management, operational and financial positions.

Hurd is a member of the Technology CEO Council, a coalition of chairmen and chief executive officers of leading technology companies.
